

NEWS
The NEWS is indebted to Senator Watson for public documents.
C. Brock Hill, formerly of Winchester, Ky., has gone to Huntington and has become a citizen of West Virginia. This eliminates one of the "also spoken of" candidates for Congress from the Tenth district.
The act proposing a diploma from the State A and M College to certify persons to teach in common schools without further examination, if they continue in school work, and that a teacher who attends summer school at the college exempted from attending county institute, has passed the House and Senate.
In the House at Washington the Adams Bill, providing for the establishment of the whipping post for wife-beaters in the District of Columbia, was laid on the table by a vote of 155 to 50. The bill was the subject of ridicule from a number of speakers, among them Mr. Stanley of Kentucky. And the Big Sandy News is glad to notice that Mr. Hopkins, of Kentucky, voted against laying the bill on the table.
That period in the life of the Legislature has been reached where it is necessary to transact business and immediately after the adjournment Monday the Committee on Rules met and decided that the House would hold afternoon sessions. Beginning Tuesday the Legislature will be in the home stretch. It will adjourn sine die March 13, having just twenty-eight working days, or cutting out Washington's birthday, which is usual. Since the weather has opened work at the timber business has begun on Drake creek. Lindsey Salmons has begun plowing for corn. Circuit Court began yesterday at Wayne. Several of our citizens are attending. Section Foreman Brandfield has a force of men numbering about 15. Asst. Nat. G. Salmons is not very well. K. H. Salmons's wife of Prentissburg, is expected here to visit soon. W. H. Dunson, of Polk, is contemplating locating at Prentissburg, W. Va. G. M. Salmons is doing a nice deal of the business. Mountain boy.

THE NEWS has very little patience with and much less use for the so-called Democratic newspapers in Kentucky which are everlastingly throwing mud at what they are pleased to call the "machine"—meaning thereby Governor Beckham and other State officials. It is reasonably expected, and our expectations have not been in vain, that the Republican newspapers would be full of this sort of thing, but the Democratic editors who have failed to get what they wanted for themselves or their friends have descended to depths of absurdity and calumny not yet reached by any Republican paper in the State, the Louisville Post only excepted. What some of these so-called Democratic editors have written during the past twelve months will make excellent material for the next crop of Republican campaign spell-blinders, and they will not be slow to use it.

HALF THE WORLD WONDERS how the other half lives. Those who use Backlin's Arnica Salve never wonder if it will cure Cuts, Wounds, Burns, Sores and all Skin eruptions; they know it will. Mrs. Grant Shry, 1136 E. Reynolds St., Springfield, Ill., says: "I regard it one of the absolute necessities of housekeeping." Guaranteed by A. M. Hughes, druggist 25c.

Gov. Patterson, of Ohio, is being treated by two physicians at different schools, who never consult with each other or call at the same hour. On his inauguration day the Governor was put into a glass case to prevent his taking cold, and it now looks like the best case would be furnished by an undertaker.

Senator Conn Linn has completed the work of redrafting Senator Charlton's bills seeking to regulate the crimes of robbery and burglary. Among the alterations made by Senator Linn is to change the penalty for feloniously entering a house from the death penalty to imprisonment for not less than ten and not more than twenty years.

An erroneous impression seems to exist in some parts of the country regarding the scope of the rural free delivery service. Although the Fourth Assistant Postmaster General has recommended that mail matter be permitted to be addressed to rural boxes, according to their numbers, and not to any particular individual, the same as in post-offices, the Postmaster General has not as yet given his approval to the same. As the matter now stands, unless mail is specifically addressed to parties residing on rural routes, it will not be delivered.

Harlan, Ky., Feb. 8.—Just before the beginning of the present term of the Circuit Court here eight prisoners escaped from the Harlan county jail by means of a key they made to the jail lock. One of them, Thomas Clark, was charged with murder and had just been captured after a reward of \$200 had been offered for him. None of the escaped prisoners have been recaptured except John Ledford, who was in jail for some trivial offense. He is reported to be the one who made the key and executed the wholesale delivery.
Seventy-Two Relief.—Prayer of Religion.—In an action to divide lands left by an intestate among his heirs-at-law, where the prayer of the petition is broad enough to invoke all the relief the Chancellor may grant, a judgment which provides for an equal division of the estate should not be reversed because the same judgment against some of the heirs to subdivisions exact what is claimed in the pleadings.

The Jar of Coughing
Hammer blows, steadily applied, break the hardest rock. Coughing, day after day, jars and tears the throat and lungs until the healthy tissues give way. Ayer's Cherry Pectoral stops the coughing, and heals the torn membranes.
"I always keep Ayer's Cherry Pectoral in the house. It gives prompt relief whenever any of us have coughs or colds. I have used it for a great many years and in every case it has cured me. It is a most valuable remedy."—Miss Mary Ferguson, Fort Smith, Ark.
Beware of cheap imitations. The name "Ayer's" is prominent on the wrapper.
